MEMORANDUM FOR: Chief, Imagery Exploitation Group, NPIC  
 Chief, Production Services Group, NPIC  
 Chief, Technical Services Group, NPIC *sure 11/30*  
 Chief, Applied Photo-Science Division, TSG/NPIC  
 Chief, Research & Engineering Division, TSG/NPIC *WJ*

25X1

SUBJECT : Project [ ] Meeting for Radargrammetry/  
 Mensuration Discussions

1. Sometime during the week of 7 December 1970, NRO will hold a meeting in their Pentagon offices for the purpose of briefing and discussing the parameters and characteristics of the aircraft attitudes, the navigation system, the SLR sensor, the means of recording INS data, and any other factors that affect radargrammetry and mensuration. The details of the meeting date, time, etc. have not been determined and will be given to you as soon as they are known.

25X1

2. The meeting will be attended by engineers and other representatives who are knowledgeable of the details affecting radargrammetry, mensuration, and navigation. The organizations being represented are [ ] SAC, NRO, NPIC, [ ] TOPOCOM, and perhaps others. It is important that NPIC be represented by individuals that are knowledgeable of the basics of SLR systems, Inertial Navigations Systems [ ], data matrices and recording methods and radargrammetry. The ability to conduct measurements and radargrammetry is an important and necessary input to the [ ] evaluation test.
